RECORDS UP-TO-DATE?
CENSUS IS COMING

The farmer who has his records up-to-date will be a step ahead of the game when the census-takers start their rounds in Virginia November 11.

The Bureau of the Census stresses that the taking of a census requires more than trained takers. The help of farmers is needed to provide information. The accuracy of the census depends in a large part upon the accuracy of the information given by each farmer.

The census will call for three kinds of information. The first category will call for a count of farm resources — farms, area of farms, acres of cropland, acres used for pasture, number of livestock, etc.

The second kind of information requested will be a record of farm products produced and sold in 1959. This information will be obtained by asking such questions as "How many acres of corn were harvested this year. How many bushels of corn were harvested? How many hogs sold?"

The third kind of information asked for will relate to selected farming activities. How many days did the farmer work off his farm? How much fertilizer and lime was used? How much was spent for farm labor? For custom work? For feed?

The Bureau also emphasizes that the information compiled in individual farms is confidential, and farmers need not hesitate about answering questions.

Modernized

Nowadays, when a man discovers his wife sewing on tiny garments, his reaction is: "My gosh, you're not going to wear that on the beach!" —Coronet.

Too hot an iron on silks not only yellows white silk but dulls colored silk and stiffens all silks.

Artificial Curing Profits Aromatic Tobacco Growers

Aromatic tobacco grows well in Virginia, and is catching the eye of farmers in several counties as a useful supplemental income crop.

But, says G. R. Mathews tobacco specialist at VPI, sun and air-curing, traditional in the native Mediterranean areas, is risky in the variable climate of Virginia's production areas.

This fact was pointed up this year as the first of the season's crop moved to market.

At the first sale in Chatham, producers sold 9,722 pounds for $7,179, average of 73c a pound. Generally, quality was down, but those growers who cured their crop with artificial heat found it paid. H. S. Reynolds, assistant county agent in Pittsylvania, reports that tobacco cured with artificial heat and sold at Chatham brought $83.50 an average of $17.60 per hundred — more than tobacco cured with only sunshine and air.

At the first aromatic sale at Chase City, 5,571 pounds brought $3,689, an average of $66.20 per hundred. Most of this tobacco, Mathews notes, was sun-and-air cured.

Cooperative engineering studies conducted by U. S. Department of Agriculture and Virginia scientists are verifying the fact that stanby electric heat in the curing barn eliminates weather risks and helps produce high-quality, high - value cured aromatic leaf. The curing tobacco, ranged on racks, can be moved outdoors in the sun and air in favorible weather. Tobacco can also be left to cure in the barn in some weather without using heat. But the proper environment can be created indoors by insulating the barn and equipping it with automatically controlled electric heaters and circulating fans to use when they are needed.

Production of aromatic tobacco in the United States is still quite limited, averaging about 1,000,000 pounds a year. Around 105,000,000 pounds were imported in 1958, mostly for blending in cigarette tobaccos. In Virginia, production has risen a little each year for the past several years, with growers selling in 1958 a total of 18,816 pounds, for $16,129.

Aromatic tobacco is not sold at auction. The farmer brings it to the place of sale and on hand are the representatives of a concern which specializes in buying up aromatic to supply domestic manufacturers. These buyers inspect and appraise the crop and pay for it on the basis of quality. Top prices are commanded by those growers who produce top-quality crops. For instance, a Southwest Virginia grower, Troy Osborne, of Independence received 97c a pound for his 1953 and 1953 crops, 92c a pound for his 1951 and 1952 crops, and 99c a pound for his 1954 crop.

Mecklenburg, Pittsylvania, Carroll and Grayson Counties produce the most aromatic tobacco in Virginia. It is also produced in Franklin, Halifax, Campbell, Henry, Lunenburg, Charlotte, Appomattox, and Amelia Counties.

Any heads-up plan for your son's future should include a talk with your b[anker]

Don't just hope he'll land on his feet—bank* on it

A boy grows up all too fast—but your banker can help plant his feet early in a promising career. He knows where job futures are brightest—what business provides the best opening . . .

And your banker can help in hundreds of other ways—even show you how to provide for your son's education.

He can help make your dollars go farther. That's his business—money—and his living depends on helping you.

*WHAT IS A BANK?
It's the only place that offers you all 5:
1. Savings accounts
2. Checking accounts
3. Home loans
4. Car and personal loans
5. Farm and business loans

See your Banker—he's the helpingest man in town

BIBLE SPEAKS

[illegible] Studies

[illegible] Lesson

KENNETH J. FOREMAN

Text: Acts 2 ...
Reading: Acts 2:16-21.

God's Power

Lesson for October 11, 1959

[illegible]ly an "oblong blur"? ... [illegible]y is said to have re- ... [illegible] every time he tried to ... [illegible] God, all he could get be- ... [illegible]cle's eye was a kind of ... [illegible]g. If God is as dim and ... [illegible] as that, then the Holy ... [illegible] even more so — a ...

Dr. Foreman

[illegible]ry of ... [illegible]rliest ... [illegible] in the ... [illegible] Acts, ... [illegible]ed us ... [illegible]a Holy ... [illegible] there ... [illegible]know; ... [illegible]by any means clear up ... [illegible]stories. But it does help ... [illegible]ntand a few important ... [illegible]ut the Holy Spirit.

The Spirit of God

[illegible]e no real difference ... [illegible]en we speak of the Holy ... [illegible] the Spirit of God. The ... [illegible]Spirit is God's Spirit, and ... [illegible]e Spirit of God is the com- ... [illegible]ly Spirit. A simple def- ... [illegible]e Holy Spirit is this: ... [illegible]s in the life of man. The ... [illegible]not a messenger from ... [illegible]not an "influence" — as ... [illegible]y that a young man ... [illegible]rit" of his father, or ... [illegible]rit" of a school is to ... [illegible] all the students. The ... [illegible]d God, God here-and- ... [illegible]-us. The first Chris- ... [illegible]ot understand this till ... [illegible]Spirit came on the day ... [illegible]ast (one of the great ... [illegible]ivals). They had been ... [illegible]s Jews, and Jews of ... [illegible] never supposed that ... [illegible]t was for every one, but ... [illegible], very fer exceptional ... [illegible] was at Pentecost that ... [illegible]ed that the Spirit is to ... [illegible]ed on ALL flesh," that ... [illegible] all sorts and conditions ... [illegible]ey recognized the com- ... [illegible] Spirit as the coming of ... [illegible]w and mighty way. No ...

[illegible]er nearer to God than he ... [illegible]Holy Spirit.

The Holy Spirit Is Not

[illegible]n African chief is con- ... [illegible]t takes some persuading ... [illegible] him to give up all his ... [illegible]rds. Even the humblest ... [illegible]t African savage has a ... [illegible] gadgets, but a big chief ... [illegible]akes all. He has a variety ... [illegible]—it may be a thing to ... [illegible]nd his neck, or in his ... [illegible] his wrist, or otherwise— ... [illegible]ard off lightning, and ... [illegible] protect him from his ... [illegible]nd another to make him ... [illegible] time, and one to bring ... [illegible] boy children. Now the ... [illegible]t is not that kind of ...

[illegible]ly Spirit (as the New ... [illegible] shows) does not guar- ... [illegible]dom from suffering. We ... [illegible]ust had the Holy Spirit ... [illegible]m, but yet he suffered ... [illegible] all the Apostles felt the ... [illegible] of the Spirit, yet all of ... [illegible]dition tells us, died mar- ... [illegible]rs. The Holy Spirit does ... [illegible]antee that the spiritual ... [illegible] never make mistakes. ... [illegible]many mistakes recorded ... [illegible]e New Testament committed ... [illegible]ns who had surely re- ... [illegible] Spirit. More than this, ... [illegible] Spirit is not a kind of ... [illegible]arm to keep the wearer ... [illegible]. We know that Simon ... [illegible]ceived the Holy Spirit. But ... [illegible]ence that he was not al- ... [illegible]from sin after that. (See ... [illegible]2:11-14.)

The Spirit What

[illegible]e Holy Spirit, in the Bible, is ... [illegible]en associated with power. ... [illegible]himself had said to his dis- ... [illegible]ples, "you shall receive power ... [illegible] when the Holy Spirit has come ... [illegible]upon you." Now the Christians in ... [illegible]Jerusalem had some kinds of pow- ... [illegible]ers, almost which most of them ... [illegible]seem to have had again: it ... [illegible]was a blazing wind and did ... [illegible]it again. Speaking with ... [illegible]ues, for instance. But there ... [illegible]was other and more lasting pow- ... [illegible]er, the power to "witness" to ... [illegible]Christ. That always includes three ... [illegible]things: the power to grow more ... [illegible]like Christ, the power to go on his ... [illegible]way in his name; and the ... [illegible]power to show by testimony and ... [illegible]example what it means to be a ... [illegible]Christian led by Christ's name. If ... [illegible]this power is not growing nor ... [illegible]even showing, one wonders if ... [illegible]he has ever known the Spirit's ...

[illegible] outlines copyrighted by ... [illegible]ational Council of Christian Education, ... [illegible]ristian Church (Disciples ... [illegible]of the United States of ... [illegible]A. Released by ... [illegible]Press Service.)

[illegible] 8¾ Personals.

[illegible] — drive carefully.

Stonewall

Stonewall, Oct, 5.- We were so blessed here, that the Storm, Gracie, didn't do so much harm. A big rain and lots of wind.

We want to extend deepest sympathy to the family of Mr. John Davidson, who died last week, and was buried at the Hebron Baptist Church on Saturday morning.

Mr. and Mrs. R. H. Phippins and family, of Williamsburg, spent the week-end with Mr. and Mrs. Jack Caldwell Jr. and Kathy.

Mrs. Elsie Caldwell, of Rustburg spent the week-end in the Caldwell home.

Miss Kate Davidson is spending this week with her niece, Mrs. Charles Judy, in Pinoastle, Va.

Rev. and Mrs. Colie Rock and boys spent the week-end with friends in North Carolina. They are surely missed when not at church and Sunday School.

Mrs. Wilton Routon and girls, Marie, Bettie and Kitty, and Mr. and Mrs. Henry Beard and Lawrence visited Mr. and Mrs. E. L. Chick over the week-end.

Mr. and Mrs. Vinson Russell and family, of Richmond spent the week-end with her parents, Mr. and Mrs. Lyle Thomas.

Let's not forget the covered dish dinner at the Stonewall Community Center on Thursday, October 15, at 12:30. The Stonewall Home Demonstration Club is having it. All members and their families are urged to be present.

Mrs. W. R. Stratton, of Appomattox spent Sunday in our community. Always so glad to see her back in our midst.

Mr. and Mrs. John Alvis and children visited her parents, Mr. and Mrs. Herbert Mathews, Jr., at Orange over the week-end.

Mrs. Tilden Lee and family attended the fair in Richmond last week..

We want to congratulate Miss Barbara Lee on winning so many blue ribons and prizes at the fair.

Mr. and Mrs. Ashby Martin, of Beckham, spent last Sunday with Mr. and Mrs. Howlette Drinkard, Sr. They all visited Mrs. J. E. Chick at Spout Spring in the afternoon.

So glad to see Gene Carson at Sunday School on Sunday morning. He has improved from his operation enough to return to his studies at V. P. I.

In Fashion Now

American women want livable comfortable clothes that have great style and fashion. American designers are up to this demand and our mass production industry make all this possible at a reasonable price.

We forget how lucky we are, fashion wise, in this country. In European countries, women must spend much more money, time and effort collecting their clothes. In some countries - Russia, for example - style and fashion seem to be unheard of by all except a very, very few. And men in these cases, the garments do not measure up to ours.

France is just beginning to introduce mass produced clothes. The custom houses and the small dressmakers' shop were the only choice French women had for many years.

It is an interesting experience to go through the N. Y. garment section. This section is the center of American clothes production.

There are other thriving sections to be found in Texas, California, and lately, Florida.

With all this - it is now much easier to get an invitation to any of the important European showings. In fact, it seems to us that American women are being catered to the world over — fashionwise.

Striped Bass Young of Year Found in Buggs Island Lake

Virginia Game Commission fish biologist has good news for fishermen within driving range of Buggs Island Lake. Four striped bass, or rockfish, taken from the 50,000-acre reservoir near Bluestone in a research sampling by the biologish recently were "young-of-the-year" — four—and five-inch fish which were spawned in the Roanoke River this spring.

Unless dams or pollution greatly change the quantity or quality of the water in the Staunton and Dan Rivers above the reservoir, Buggs Island Lake will be a stripper "hot spot" in the near future, Bowman predicted.

KNOW THE WEATHER

By E. H. Sims

What do we mean when we say that weather is a layer of gas?

This is looking at weather from a global standpoint. All our weather is concentrated beneath an altitude of about 40,000 feet.

The layer of gas (air) circulates around the globe, west to east above the United States. The top of the layer is not level and features mountain peaks and valleys, so to speak. When you are beneath a mountain of air you are under a high-pressure system.

When you are under the influence of a low pressure system, you are under a valley — at the top of the layer of gas (air) above you.

SPOUT SPRING S. C. A.

The Spout Spring S. C. A. held its first meeting of the session on Sept. 29. The purpose of this meeting was to elect officers for the year. The following were named:

President, Jennie Henry
Vice-president, Pat Carson.
Secretary, treasurer, Freddie Dickerson.
Reporter, Jill Henry.

Announcing!

A WONDERFUL NEW WORLD OF FORDS FOR 1960

FINEST FORDS OF A LIFETIME

This new Ford Galaxie, like all the new, beautifully proportioned 1960 Fords, is styled from a new viewpoint. Traditional automotive elegance combines with modern design in the style of a new decade!

In 1960, for the first time in history, your Ford Dealer presents not one, not two, but three new lines of Ford cars . . .

1. The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View, worth more from every Point of Value!
2. The 1960 Falcon—The New-size Ford, the world's most experienced new car and the easiest car in the world to own!
3. The 1960 Thunderbird . . . The World's Most Wanted Car!

Now you can see them—the Finest Fords of a Lifetime! Economy-minded Fairlanes. Big-value Fairlane 500's. Elegant Galaxies. A breath-taking new Sunliner convertible and a brand-new hardtop model, the flashing Starliner. Then there's a whole new world of Station Wagon Living, too. It all adds up to 15 glittering variations of the world's newest, most elegant styling theme!

And Ford sets the new trend in power. Ford's Thunderbird 292 V-8 and 352 V-8, like the famous Mileage Maker Six, bring a new world of smoother, hotter performance—on regular gas.

To top it all, the Finest Fords of a Lifetime are priced for savings. Ford is still priced to outvalue all comparable models of its major competitors.

Ford savings, however, only begin with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful . . . a Full-Flow oil filter that lets you go 4,000 miles between oil changes . . . Diamond Lustre Finish that never needs waxing . . . aluminized mufflers that normally last twice as long as conventional types . . . new, safer, Truck-Size brakes that are the biggest ever in Ford's history . . . and new soft-tread, Tyrex cord tires that run quieter, last longer.

In every way these are the Finest Fords of your Lifetime! See them at your Ford Dealer's!

FORD DIVISION, Ford Motor Company,

Introducing the New-Size Ford . . . the 1960 Ford Falcon

Meet the New-size Ford—the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car . . . powered to pass and climb like a "big" car . . . and built like no other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 3 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column—not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's . . . and see the difference!

See "FORD STARTIME" in living color Tuesdays on NBC-TV

THE FALCON FORDOR SEDAN is the world's most experienced new car in the easiest car in the world to own!

FORD BUILDS THE WORLD'S MOST BEAUTIFULLY PROPORTIONED CARS
